

Infrastructure

Capital vs. Operating Expenses

- Engine MRO Plan
- Spares provisioning
- Ground equipment
- Line capacity
- Base capacity

Technical Skills

- Narrow population with depth
- Optimize OEM training for technicians vs. support staff
- Airline partner training
- Crew bidding controls
- Task oriented

Regulatory

- Partner early
- Focals identified
- Ops Spec timelines
- New internal procedures
- ETOPS preparedness

Operational

- Conservative route deployment
- Integration with flight crews
- Alternate fleets for missions
- Ground time for early mods
